SPRING 1904 ORDERS are due on Friday, 6 September 1974. They may not be made conditional on anything that just happened in Winter, since it already happened and thus is not under contention, wot? Funny you should ask, Dave....

I do not have Spring orders on file for anybody, so be sure you send them in. On the other hand, Rod has such orders from Austria, France and Russia, and that's rather more important, it would seem to me, if I were playing, which I'm not. Just as well. I'm too honny to play....

Somehow I think that's just about enough of this. Tatty.
